

28TH STREET AND COLORADO AVENUE NATURAL GAS PROJECT

CONSTRUCTION STARTING SOON

Construction starting soon

Construction is expected to restart as early as the week of July 8, 2024 and continue through August 2024. Schedules are subject to change.

During work, you may notice:

- Marking of utility lines and utility survey holes.
- Road and sidewalk closures.
- Traffic control.
- Temporary changes to access.
- Construction noise.

We'll restore work areas to preconstruction conditions as weather allows.

Overview

We will replace 400 feet of natural gas line in the intersection of 28th Street and Colorado Avenue. This work allows us to continue to provide safe, reliable natural gas service and enhances system resiliency during extreme weather.

Safety

Public safety is at the foundation of all we do. The safety of the public around Xcel Energy's natural gas system influences every decision we make.

If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.
