

CHAMBERS AND SIXTH NATURAL GAS PROJECT

START OF CONSTRUCTION FLYER
MAY 2022
COLORADO

Work starting soon

Starting as early as the week of May 30, 2022, construction activities will start on Chambers Avenue, between north of 6th Avenue and Elkhart Street.

Work will occur Monday through Friday from 8 a.m. to 5 p.m. In certain circumstances we may be required to work nights or weekends.

Please note schedules are subject to change.

Construction

During construction, you may notice:

- Marking of utility lines and utility survey holes.
- Road, sidewalk and sidewalk closures.
- Traffic control.
- Parking restrictions.
- Temporary changes to how you access your location.
- Construction noise.

We work to reduce construction-related inconveniences and will temporarily restore work areas following natural gas line installation. Final restoration will occur when conditions allow.

Overview

We are installing 1,500 feet of natural gas line in Aurora for the Chambers and Sixth Natural Gas Project. The natural gas line will be installed with an underground bore along Chambers Avenue, between north of 6th Avenue and Elkhart Street.

This work will allow us to continue to provide safe, reliable natural gas service, and enhances system resiliency during extreme weather.

Safety

Public safety is at the foundation of all we do. The safety of the public around Xcel Energy's natural gas system influences every decision we make.

If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.
