

CHAMBERS AND SIXTH NATURAL GAS PROJECT

END OF CONSTRUCTION FLYER

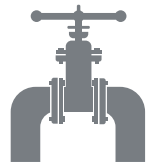

Construction complete

Crews have completed construction and temporary restoration of the Chambers and Sixth Natural Gas Project. We will return in spring 2023 to complete final restoration when weather conditions allow.

It was our pleasure to work in your community, and we thank you for your patience and cooperation.

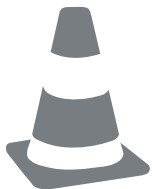

Overview

We installed 1,500 feet of natural gas line along Chambers Avenue, between north of 6th Avenue and Elkhart Street.

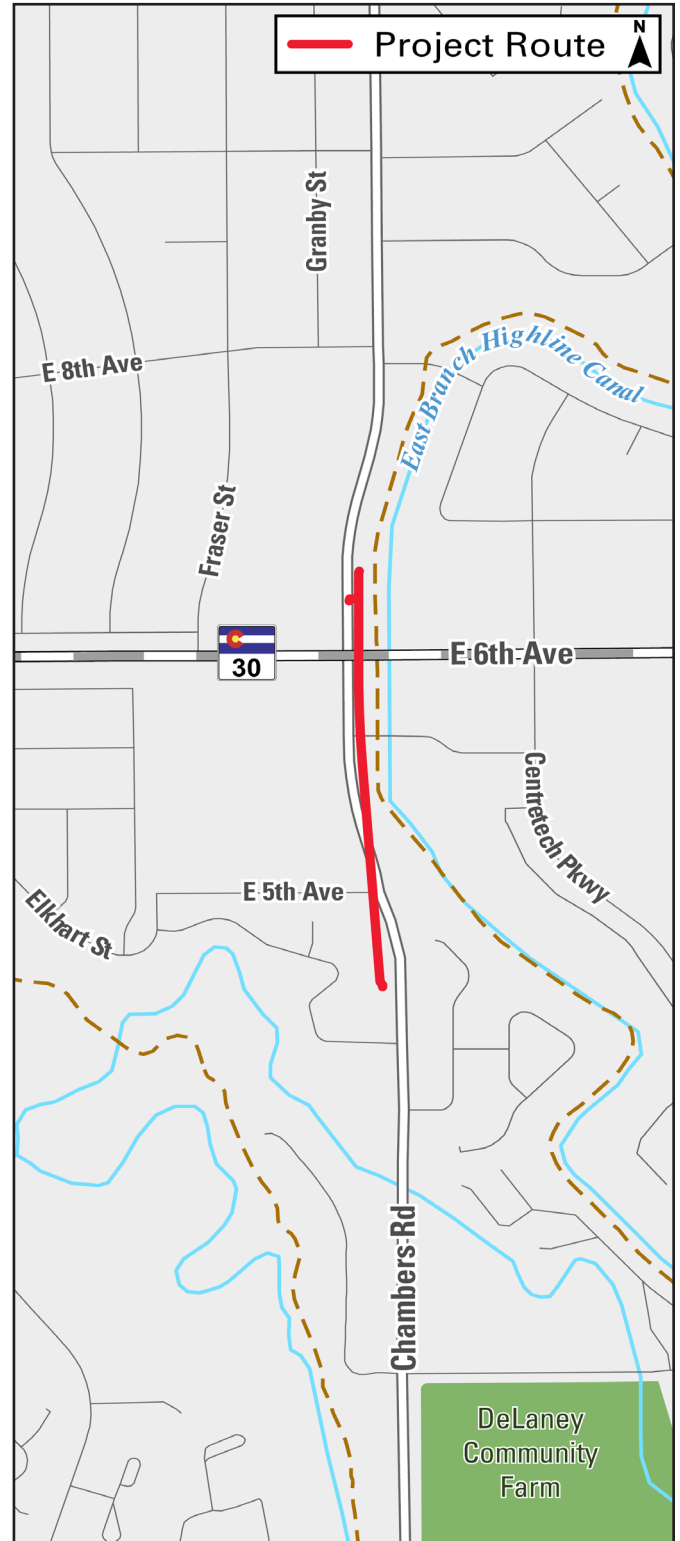

This work is our commitment to system revitalization, allowing us to continue to provide you safe, reliable service.

Safety

Public safety is at the foundation of all we do. The safety of the public around Xcel Energy's natural gas system influences every decision we make.

If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.

This map is a graphic and may not show exact locations.
