

I-270 NATURAL GAS PROJECT

Construction In Your Area

Construction

East 60th Avenue between Brighton Boulevard and 4150 East 60th Avenue will be fully closed when construction begins for material and equipment staging for natural gas line installation. Schedules are subject to change.

During work, you may notice:

- Marking of utility lines and utility survey holes
- Road and sidewalk closures with parking restrictions
- Temporary changes to access
- Construction noise
- Work area restoration as weather allows

We will install the natural gas line by boring.

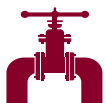

Overview

Xcel Energy is relocating a 24-inch diameter natural gas line in Commerce City, Colorado, as part of the I-270 Natural Gas Project.

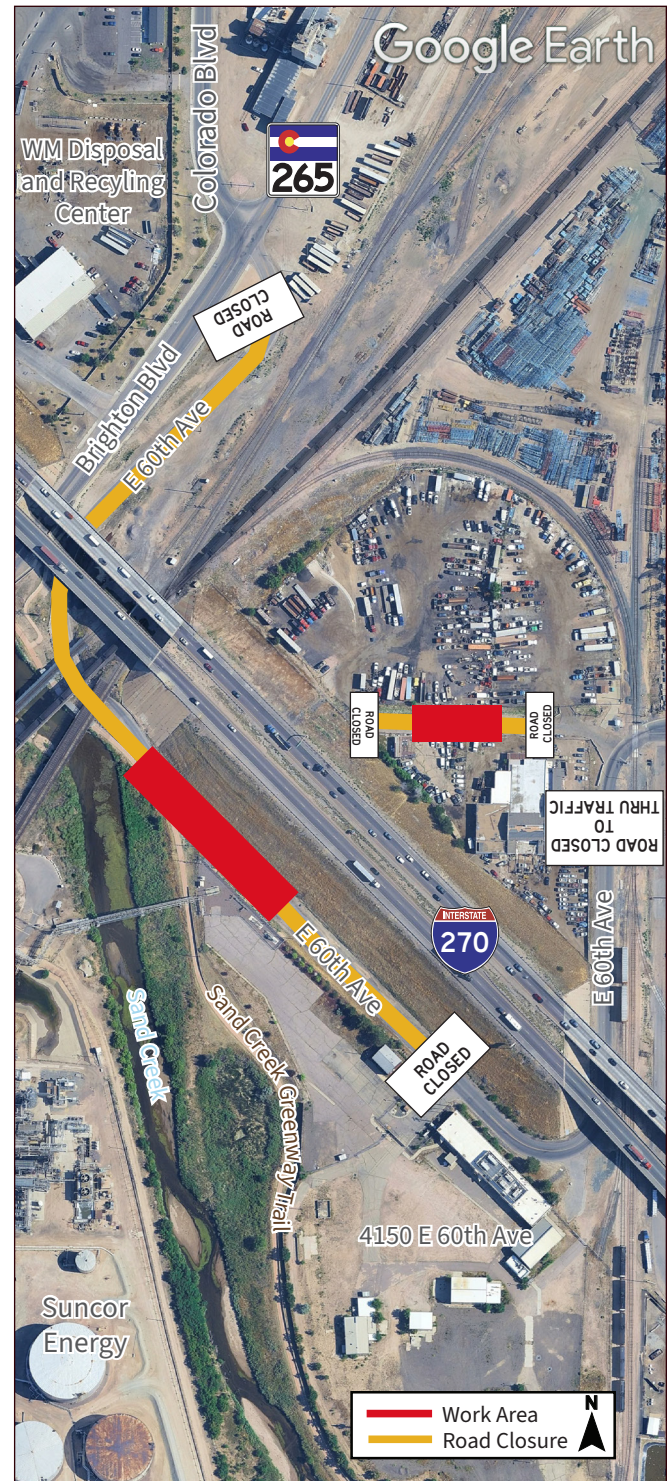

In partnership with the Colorado Department of Transportation's I-270 Critical Bridges construction project, Xcel Energy will require a full closure of 60th Avenue between Brighton Boulevard and approximately 1,800 feet east of Brighton Boulevard.

This work will allow us to continue to provide safe, reliable natural gas service throughout the community.

Safety

The safety of the public around Xcel Energy's natural gas system influences every decision we make. If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.
