

CONSTRUCTION COMPLETE

This map is a graphic and may not show exact locations.

Construction complete

Crews have completed construction and temporary restoration activities on the Flatirons section of the Loveland to Estes Park Natural Gas Project. We will return in spring 2023 to complete final restoration when weather conditions allow.

It was our pleasure to work in your community, and we thank you for your patience and cooperation.

Overview

We installed natural gas line and rebuilt natural gas regulator stations in Loveland, Estes Park and unincorporated Larimer County.

This work allows us to continue to provide safe, reliable service and enhances system resiliency during extreme weather.

Safety

Public safety is at the foundation of all we do. The safety of the public around Xcel Energy's natural gas system influences every decision we make.

If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.
