

SHIELDS STREET NATURAL GAS PROJECT CONSTRUCTION COMPLETE

Crews have completed construction and restoration of the Shields Street Natural Gas Project along Shields Street, between Drake and Horsetooth roads.

It was our pleasure to work in your community, and we thank you for your patience and cooperation. We will construct the next phase of the project near Shields Street and Horsetooth Road in 2026.

Overview

We replaced one mile of natural gas line along Shields Street between Drake and Horsetooth roads in Fort Collins, Colorado.

This marked the 2025 phase of a multi-year natural gas project in Fort Collins, as well as the third phase of work taking place on Shields Street..

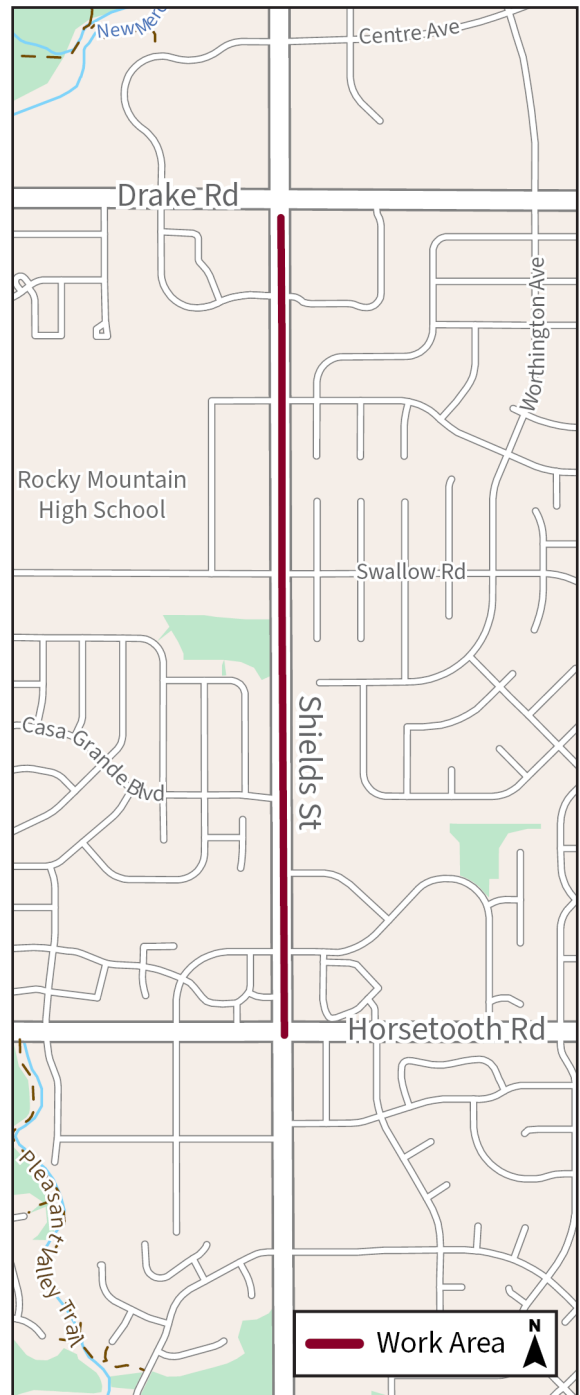

This work allows us to continue to provide safe, reliable natural gas service and enhances system resiliency during extreme weather.

Safety

Public safety is at the foundation of all we do. The safety of the public around Xcel Energy's natural gas system influences every decision we make.

If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.
