

TERRY LAKE ROAD NATURAL GAS PROJECT

CONSTRUCTION IN YOUR AREA

Construction near you

Construction is expected to begin in March 2024 and continue through fall 2024. Schedules are subject to change.

During work, you may notice:

- Traffic control.
- Marking of utility lines and utility survey holes.
- Road and sidewalk closures.
- Temporary changes to access.
- Construction noise.

We will install the natural gas line by open trenching and boring.

We'll restore work areas to preconstruction conditions as weather allows.

Overview

We will replace approximately 2.5 miles of natural gas line along and near Terry Lake Road, between Country Club Road and East County Road 58, in Larimer County, Colorado.

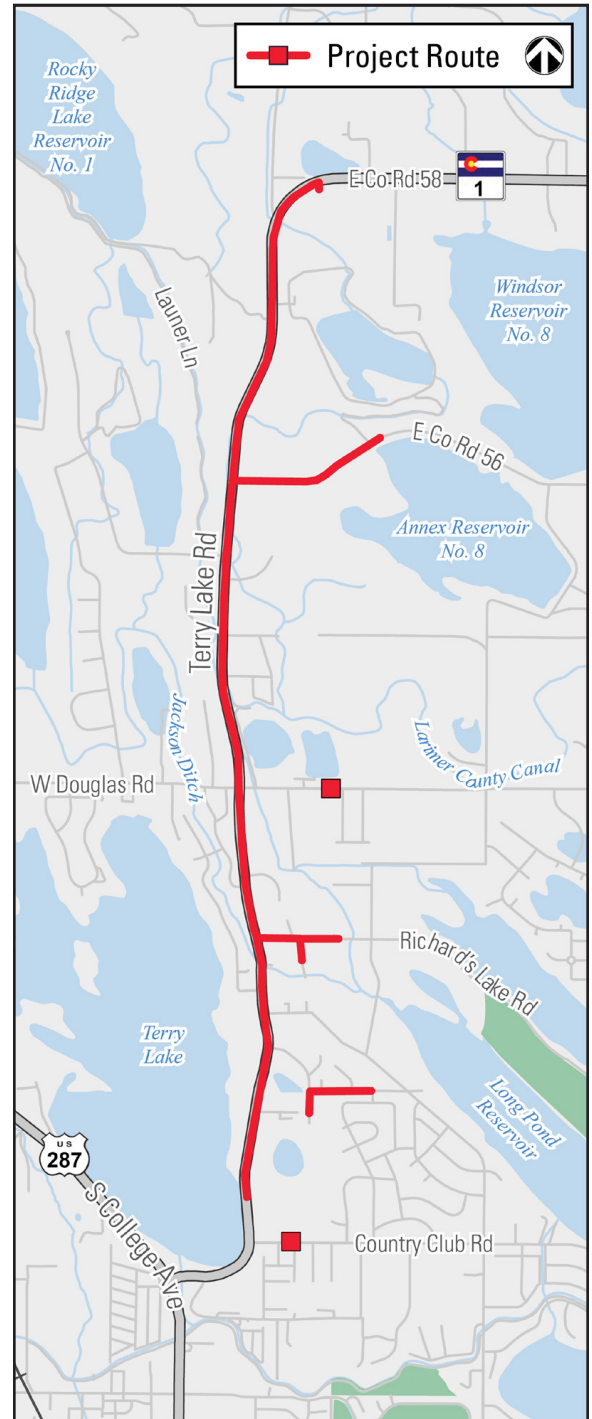

This work allows us to continue to provide safe, reliable natural gas service and enhances system resiliency during extreme weather.

Construction began in winter 2023 and is expected to continue through fall 2024.

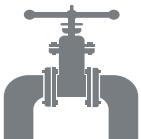

Safety

Public safety is at the foundation of all we do. The safety of the public around Xcel Energy's natural gas system influences every decision we make.

If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.
