

## WORK IN YOUR AREA

### Overview

We are completing a multi-year natural gas project in Denver and Commerce City, Colorado.

We are installing about 5,500 feet of natural gas line between 2021 and 2023. In 2023, we will work along the Vasquez Boulevard Frontage Road/Colorado Boulevard Service Road, between 53rd and 56th avenues, and along 56th Avenue, between Vasquez and Brighton boulevards.

This work will allow us to continue to provide safe, reliable natural gas service, and enhances system resiliency during extreme weather.

### Schedule

The final phase of construction is expected to begin in mid-January and continue through spring 2023.

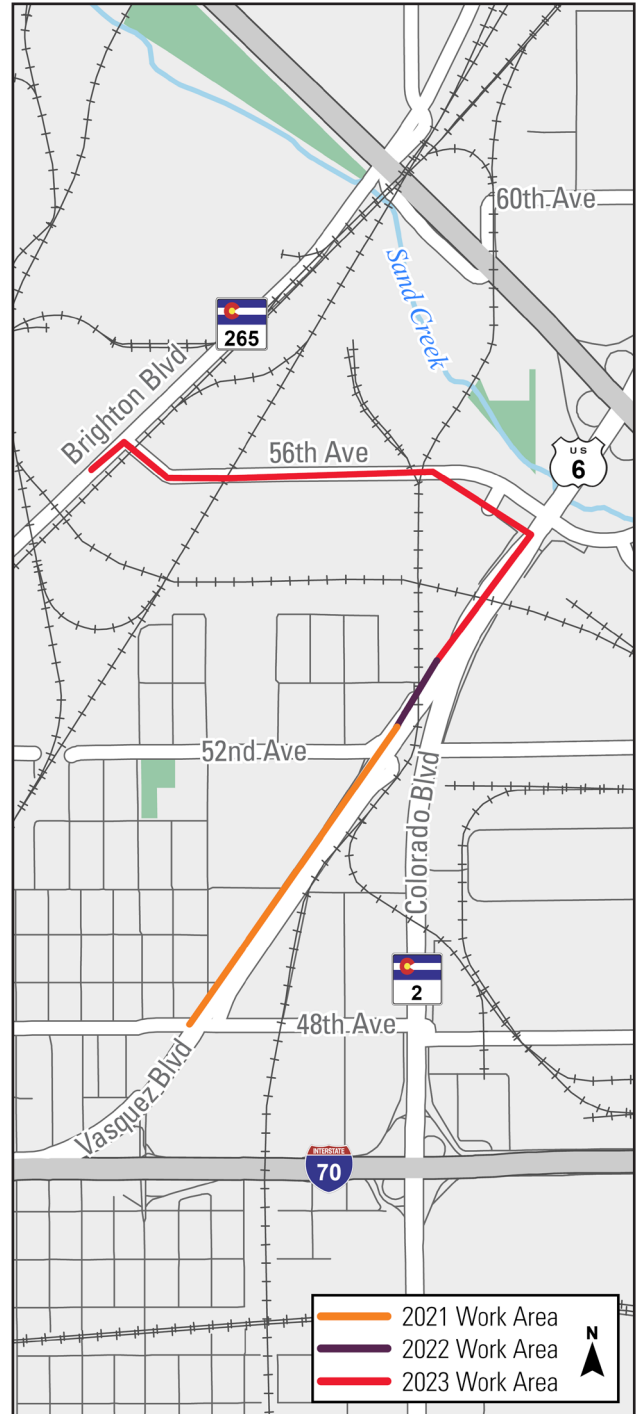

Schedules are subject to change.

### Safety

Public safety is at the foundation of all we do. The safety of the public around Xcel Energy's natural gas system influences every decision we make.

If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.
