

WILLOWBROOK ROAD NATURAL GAS PROJECT

CONSTRUCTION STARTING SOON

This map is a graphic and may not show exact locations.

Construction starting soon

Construction is expected to start as early as Monday, Dec. 16, 2024 and continue through spring 2025. Schedules are subject to change.

We may work in yards and other areas of customer properties to replace the natural gas service line serving the property. We will contact customers to arrange a date and time to complete this work.

During construction, you may notice:

- Marking of utility lines and utility survey holes.
- Road and sidewalk closures.
- Parking restrictions.
- Traffic control.
- Temporary changes to access.
- Construction noise.

We'll restore work areas to preconstruction conditions as weather allows.

Overview

We will replace approximately 3,900 feet of natural gas line and replace customer service lines along Christmas Tree Drive, Circle Drive, Park Lane and Willowbrook Drive and along portions of Aurora Avenue, Cascade Avenue and 6th Street in Boulder, Colorado. This work allows us to continue to provide safe, reliable natural gas service and enhances system resiliency during extreme weather.

Safety

Public safety is at the foundation of all we do. The safety of the public around Xcel Energy's natural gas system influences every decision we make. If you suspect a natural gas leak, leave your home or business immediately. Once you are safely away, call **911**, then Xcel Energy at **800-895-2999**.
